ADI Design Index

**EARL enters the
ADI Design Index,
the selection of the best
in Italian design.**

EARL entra nell'ADI Design Index,
la seleziona del miglior design
italiano.

Thanks to this nomination, Piaval enters the pre-selection of the Compasso d'Oro Award, the oldest and most influential international design award, established in 1954 by a Gio Ponti's idea in order to pick out the value and quality of the best designers and of the best Italian design companies.

The Compasso d'Oro is awarded on the basis of a pre-selection made by ADI (the Italian Association for the Industrial Design) Permanent Observatory of Design, consisting of a commission of experts, designers, critics, historians and specialized journalists. They are engaged in collecting information year after year, and in valuing and selecting the best products or product systems, assessed in the context of different merchandise fields, in addition to the theoretical, historical and critical research and the corporate research. The selected products are then published on the ADI Design Index yearbook.

Grazie a questa nomination, Piaval entra nella preselezione del Compasso d'Oro, l'autorevole premio - nato nel 1954 da un'idea di Gio Ponti - che mette in luce i migliori designer e le migliori aziende del design italiano. Il Compasso d'Oro viene infatti assegnato sulla base di una preselezione effettuata dall'Osservatorio permanente del Design ADI-Associazione per il Disegno Industriale. L'Osservatorio è costituito da una commissione di esperti, designer, critici, storici, giornalisti specializzati che ogni anno valutano e selezionano i prodotti che si distinguono per originalità e innovazione funzionale e tipologica, per i processi di produzione adottati, per i materiali impiegati, per la sintesi formale raggiunta. I prodotti selezionati entrano così nell'ADI Design Index.
